Taladeogo Abraham

React & React Native Developer

✉ ataladeogo@gmail.com   🔗 talade.tech

SUMMARY

React Native-focused frontend developer with experience building production-grade mobile and web apps, especially in health tech and access-driven platforms. Passionate about using technology to improve lives at scale, from pharmacy platforms to learning tools. Skilled in React Native, React, TypeScript, and deployment pipelines for both iOS and Android. Known for owning projects end-to-end, collaborating across teams, and shipping intuitive, user-focused features.

EXPERIENCE

Product Engineer, *Famsi Africa* ↗ 03/2025 – Present

- Lead developer for the mobile frontend of Famasi's pharmacy platforms, including the Dispensary app and Personal Pharmacy product.
- Architected and maintained the mobile experience across Android and iOS, managing deployments and updates via Play Store and App Store Connect.
- Built and iterated on features like "Curated Plans" to help users access affordable wellness packages, increasing conversion and repeat usage.
- Collaborate on the web platform with another frontend engineer, contributing React components and aligning user flows between platforms.

Technologies: React Native, React, TypeScript, Zustand, Firebase, Tailwind CSS, Google Play Console, OTA Updates

Mobile Developer (Contract, Part-Time), *Compre* ↗ 01/2025 – Present
United States

- Sole mobile developer for Compre's iOS and Android apps, built from scratch and published on both app stores.
- Implemented features that support real-time product ordering, pharmacy profile management, and distributor discovery.
- Integrated mobile app flows with backend systems to improve procurement efficiency, transparency, and trust in the pharmaceutical supply chain.
- Managed app store deployment and updates for both platforms, ensuring smooth performance and delivery.

Technologies: React Native, TypeScript, Zustand, App Store Connect

Frontend Developer (Contract), *Mobann Technologies* ↗ 05/2024 – 09/2024
United States

- Led the frontend development of a Learning Management System (LMS) for a DevOps training platform.
- Architected a responsive UI, built custom assessments, and added progress tracking features.

Technologies: Next.js, TypeScript, Chakra UI, Redux, React Query

Mobile Developer, *Octosoft Technologies* ↗ 08/2022 – 02/2024

- Contributed to a React Native app for doctor-patient communication and health plan comparison.
- Led a major dependency update and performance overhaul for the mobile codebase.

Technologies: React Native, TypeScript, XCode, Android Studio, Push Notifications (FCM)

EDUCATION

Diploma, Front-end Development, *AltSchool Africa*   2022 – 2023

B.Sc. Quantity Surveying, Second Class Upper, *University of Lagos*   2016 – 2023
